## Work Experience

---

**Global Education Ltd** | Power BI Analyst (Contract)

**Mar 2025 – August 2025**

- Worked on a **contractual based role** delivering high-impact **Power BI dashboards** and business intelligence solutions.
- Migrated **Tally ERP** data into **SQL Server** and built **Automated**, user-friendly **Loan Dashboard** and **Published** on **Power BI Service**.
- Designed and developed **interactive dashboards** for expenses, purchases, inventory management, electricity cost, vehicle management, and marketing performance.
- Analyzed **admissions data** across multiple colleges and universities, providing insights that supported strategy formulation and improved student engagement.
- Built a **Power BI dashboard integrated** with **Power Apps & SharePoint**, visualizing daily electricity costs and consumption from MIS operator meter readings.
- Created **location-wise land dashboards** with **map visuals** for strategic asset and land management.
- Published and scheduled refreshes on **Power BI Service**, configuring **Power BI Gateway** for automated updates.
- Implemented **Row-Level Security (RLS)** to ensure confidentiality and role-based access.
- Automated loans due reminders using **Power Automate**, including **bank holiday** parameterization for accurate notifications.

**Haldiram Foods International Pvt Ltd** | Data Analysis Officer

**Nov 2023 – Mar 2025**

- **Developed** and maintained Power BI dashboards and automated Excel reports to provide daily, weekly, and monthly **insights** into sales, distribution, and marketing performance, enabling leadership to make data-driven decisions.
- Designed **SQL-based** data models and performed deep-dive analysis to uncover trends, anomalies, and business opportunities across sales territories and product categories.
- Collaborate with sales and marketing leadership to identify key KPIs, contributing to a **30% improvement** in customer **acquisition** efficiency through targeted campaigns and competitor benchmarking.
- Conducted root cause analysis on **sales** fluctuations using data from multiple systems (SFA, ERP, Excel), enabling course corrections in regional strategies.
- Played a key role in digital transformation initiatives, working closely with the **Centre of Excellence (CoE)** to enhance the organization's **SaaS-based** Salesforce Automation platform.
- Conducted business analysis activities including **Requirement** Gathering, Market Research, SWOT, MOST, and PESTLE Analysis to bridge the gap between technical teams and senior leadership.

**Internship Studio** | Data Analyst Intern

**Jun 2023 - Jul 2023**

**Project – Sales Data Analysis and Reporting for a Retail Chain**

- The primary objective is to utilize **Python**, **SQL**, **Excel**, and **Power BI** to analyze sales data, generated meaningful reports, dashboards and deliver impactful **PowerPoint** presentation for a retail chain.
- Used **Python libraries** for in-depth data analysis and successfully achieved a **15%** revenue growth by analyzing retail sales data and identified **top 5** customers contributing **30%** of total sales.

**Data Analytics Consulting Virtual Internship - KPMG** | Intern

**May 2023**

- Gained hands-on experience in **real-world** data analytics projects involving data analysis, data quality assessment, and data insights presentation.
- **Worked** with key data sets, including Customer Demographics, Customer Addresses, and Transactions, ensuring data cleanliness and preparing it for in-depth analysis.
- Utilized Advanced Excel and **Power BI** to analyze data, uncover valuable customer insights, and generate actionable **business intelligence**.
