CAREER OBJECTIVE:

Seeking a position to utilize my skills and abilities that offers Professional & Organizational growth, while being resourceful and innovative.

PROFESSIONAL SUMMARY:

Results-driven and detail-oriented Software Developer with 2.5 years of experience in designing, developing, and deploying scalable applications. Proficient in [React.js, Node.js, Express.js, MySQL, REST API], with a strong foundation in problem-solving and software architecture. Passionate about building efficient, user-centric solutions and continuously enhancing technical skills. Seeking a challenging role in a dynamic organization to contribute expertise in software development while growing professionally.

EDUCATION:

B.E (EEE)-2018-2022 ,Kingston Engineering college, Vellore.

EMPLOYMENT HISTORY:

Neural Schema IT

Software Engineer (Aug 2023-present)

Eviden

Associate Consultant (Nov 2022 – Jun 2023)

PROJECT 1: Digitalentz (Oct 2024 – Present)

Digitalentz is a web-based timesheet management system designed for efficient employee time tracking, task management, and productivity monitoring. The platform provides an intuitive interface for employees to log their working hours, assign tasks, and generate reports for project tracking and payroll processing.

PROJECT 2: 5Elements (Aug 2023 – Present)

Description: 5Elements is a comprehensive web-based application designed to streamline document management, AI-powered insights, and system configurations. Developed using React.js, Node.js, Express.js, and MySQL, it integrates ChatGPT for intelligent file processing and interaction.

ROLES & RESPONSIBILITIES:

- **Full-Stack Development:** Developed and optimized web applications using **React.js, Node.js, Express.js, and MySQL**, ensuring efficient frontend and backend communication.
- **API Development & Integration:** Designed and implemented **RESTful APIs** for data exchange, integrating **AWS, SSO, Jira, and SharePoint** for seamless system functionality.
- **State Management & UI Optimization:** Utilized **Redux** for dynamic state management and implemented **responsive designs** using **Tailwind CSS** to enhance user experience.
- **Database Management & Performance Optimization:** Designed **MySQL database schemas**, optimized queries, and improved API response times for better system performance.
- **Security & Authentication:** Implemented **JWT-based authentication**, session management, and cache control to enhance security and data protection.
- **Agile Development & Collaboration:** Worked in **Scrum-based teams**, actively participating in sprint planning, backlog grooming, code reviews, and team discussions for seamless project execution.
- **Debugging & Troubleshooting:** Identified and resolved UI/UX issues, API failures, and database bottlenecks, ensuring application stability and smooth performance.
- **Strong knowledge about Scrum framework** which is efficiently and effectively used in our SDLC lifecycle.

Certifications : MS Azure Fundamentals (AZ- 900).
