

PROFESSIONAL SUMMARY

Full Stack Developer with over 3.5 years of experience in building scalable web applications using React JS, Redux, C#, .NET Core and SQL Server. Skilled in developing RESTful APIs, problem-solving, and optimizing performance. Strong in object-oriented design and effective collaboration.

EMPLOYMENT HISTORY

Frontend Developer | Bright/River | Chennai | Sep 2023 – Present

- Developed and maintained robust RESTful APIs with high quality and testable task-based code using ASP.NET Core framework.
- Designed, owned and managed a mission-critical application using object-oriented design responsible for generating previews and thumbnails for a diverse range of images which resulted in 80% decrease in server performance issues.
- Designed, developed, and managed a key web application feature enabling secure retrieval of API credentials directly associated with clients, streamlining client integration workflows and improving operational efficiency by 60%.
- Implemented a complex shift automation feature, which would generate shifts for 100s of employees with sequential rotation of shifts, using Dotnet and ReactJS.
- Resolved critical bugs affecting live production environments through debugging and troubleshooting efforts, ensuring seamless operation and minimal disruption to services.

Software Developer | ViyaniTech | Thanjavur | May 2021 – Apr 2023

- Developed a front-end web application using Dotnet Framework and ReactJS.
- Provide technology solutions using service-oriented architecture to solve complex business problems and requirements.
- Collaborated with back-end developers to integrate UI and ensured there is no breakage in live application.
- Responsible for code testing and maintaining technical documents for defects.
- Coached a new joiner in the line of business on project implementation.
