EXPERIENCE

MsgKart - Senior Software Developer (21st October 2024 – Present)

Bengaluru, Karnataka

- Spearheading end-to-end development tasks including designing and building new components and web applications for clients, managing backend and database operations, integrating CI/CD pipelines for seamless deployment, and rigorously testing components to ensure quality and reliability.
- Enhancing user experience and interface while leading the development of new features. Integrating AI-driven agents to accelerate workflows, improve efficiency, and deliver a seamless, intelligent user experience.

Meltwater - Solutions Engineer Level – 1 (1st March 2024 – 18th June 2024)

Bengaluru, Karnataka

- Created optimal web application solutions for client and internal use cases by utilizing technologies such as Angular, Node, JavaScript, MongoDB, Docker, Kubernetes, and Auth0.
- Enhanced user analytics by implementing a project called Analytics, which tracked events, page loads, user login and logout counts, leading to a 15% improvement in user journey insights.
- Contributed to front-end design improvements by optimizing the old boilerplate, resulting in a significant better user interface performance and design.

Meltwater - Solutions Engineer Intern (17th July 2023 – 29th February 2024)

- Accomplished robust and innovative web solutions by implementing technologies such as Angular, MongoDB, Docker, Kubernetes, and Auth0, which led to a seamless blend of front-end and back-end development and effective team leadership.

EDUCATION

M S Ramaiah Institute of Technology, Masters of Computer Applications, Bengaluru.

CGPA: 8.96 2021 – 2023

Kles's P C Jabin Science College, Bachelors of Computer Applications, Hubballi, Karnataka. CGPA: 9.02 2018 – 2021

SKILLS

Programming Languages: JavaScript (JS), Python, Java, C++

Front-End & Back-End: Angular, React, HTML, CSS, Node.js, Express.js, Django,

Databases: MongoDB, MySQL, Postgres.

DevOps: Docker, Kubernetes, AWS(Amplify, RDS, EC2, Cognito, Lambda, S3 bucket, IAM, SNS), Jira.

Others: AI Agents, Data Structures, API development, System architecture, Problem-solving, Figma, Graphic designing, Prompt Engineering, Fine-tuning LLMs.

PROJECT

• CRM Portal

Tech Stack: Angular, JavaScript, HTML, CSS, GoLang, Java.....more(Multiple Tech)

- Worked on CRM Portal with Lead and Call Management, enabling seamless lead tracking, associate assignment, and automated follow-ups. Integrated Meta Ads Manager, Campaign Templates, AI-powered Chatbots, Flow Builder, and WhatsApp Business Product Services to enhance customer engagement.

• Analytics Application (Management Dashboard)

Tech Stack: MEAN stack, Segments, AWS Redshift, Auth0.

- Accomplished analysis of growth, sales, and user retention metrics by implementing a dynamic dashboard for monitoring real-time user activities and events, which led to great decision-making and strategic planning for clients.

• AR App for Autistic Children to Learn Social Skills

Tech Stack: C#, Unity Engine, Vuforia, Blender.

- Developed tailored learning experiences for special needs kids by implementing AR and VR technologies, resulting in a significant improvement in social skills among autistic children as measured by engagement metrics.

• Covid Guide Application

Tech Stack: Python, Django, HTML, CSS.

- Accomplished dissemination of critical information about the COVID-19 virus by implementing a dynamic website, which led to increased public awareness and access to real-time data on available hospital beds and infection counts.

RESEARCH PAPER

- 7th IEEE International Conference on Computational Sys and Info Technology for Sustainable Solutions

Nov 2023

[*Guiding Special Need Children using AR/VR Technology*](#)

- International conference on circuits, control, communication and computing I4C – 2022

Dec 2022

[*Augmented Reality Applications for Special Kids*](#)
