Professional Experience

Amazon Development Center India – Chennai

1. **Data Analyst** – Level 2 (Aug 2018 – Aug 2020)

- Built Power BI and Tableau dashboards for Sales, Revenue, Inventory, and Operations.
- Developed SQL queries and Power Query transformations.
- Created DAX and Tableau calculations for business KPIs.
- Automated daily, weekly, and monthly reporting.

2. **Data Analyst II** – Level 3 (Risk Management) (Aug 2020 – Present)

- Led enterprise Power BI and Tableau dashboard development.
- Built optimized star schema data models.
- Developed advanced DAX measures for growth, SLA, and profitability.
- Implemented Row Level Security and governance.
- Delivered insights to leadership to reduce cost and risk.

KEY PROJECTS

1. Sales & Profitability Dashboard

- Built interactive dashboards showing **Revenue, Profit, YoY Growth, and Product Performance**.
- Designed DAX measures for **trend analysis and time intelligence**.
- Enabled drill-downs from **region → product → customer**.

2. Operations & Ticketing Analytics

- Created dashboards tracking **open tickets, resolution time, SLA %, and agent performance**.
- Built **fact and dimension tables** to support operational KPIs.
- Identified **bottlenecks and high-reopen agents**.

3. Customer Review Analysis

- Designed reports to track **ratings, complaints, reasons, and product quality**.
- Used Power BI visuals to highlight **high-risk products and trends**.

Key Achievements

- Reduced manual inventory reporting by 30%.
- Enabled stockout identification 40% faster.
- Improved SLA and cost efficiency through analytics.
- Mentored analysts on Power BI best practices.

Education

Bachelor of Engineering – Information Technology, Prince Dr. K.V. College of Engineering & Technology, Chennai (2013–2017)
