PROFESSIONAL SUMMARY

Software Engineer dedicated to continuous improvement with over 3.10 years of experience as a Software Developer(C++). Successfully designed and implemented complex software programs and Proponent of observational learning, drawing insights from colleagues, peers, and learned experiences. Committed to Agile Methodology for efficient project delivery. Skilled in writing complex stored procedures and user-defined functions, with a solid grasp of SDLC processes including integration, unit testing, and deployment. Skilled in delivering scalable, responsive applications with a strong focus on user experience and accessibility. Known for strong debugging and problem-solving abilities, effective team collaboration, and commitment to delivering high-quality, maintainable code.

EXPERIENCE

Software Engineer

HCL Technologies Pvt Ltd, Chennai | Sep 2021 – Present

TECHNICAL SKILLS

- **Technologies:** C++, STL, OOPS, Multi-Threading, Linux*
- **Tools :** Microsoft Visual Studio, Git, Jenkins, Ranorex Automation, Bit-Bucket, Jira

* intermediate proficiency

PROJECT EXPERIENCE

XEROX Project

- Engaged in the development of both Windows and Linux Print, Scan drivers and UWP, WPF applications using C++ and C#. Resolving and closing the defects which was addressed by testing team and it helps to increase the productivity and efficiency of the team.
- Enhanced the existing features of scan drivers and play key role in addition of new options in scan driver UI which leads to reduce the defects and increase the performance of the scan driver by 60%.

- Investigated and analyzed client-reported issues in our store application and implemented code fixes to improve application stability and user experience. Participated in client discussions to understand requirements and ensure proper resolution of critical issues.
- Documented Solutions found during investigation tasks and shared knowledge to support future troubleshooting efforts.
- Utilized Microsoft visual studio to debug, enhance and troubleshoot the C++ and C# applications in a collaborative development environment.
- Pioneered the implementation of test automation for V3, V4 drivers and WPF Applications which leads customer satisfaction and reduces the time of testing.
- Integrated advanced features and use PSA automation to calculate the driver performance that contributed to increase the print driver performance by 60%.
- Jira Fixit was used as a defect tracking tool and to update and resolve the defects to increase the driver efficiency by 80%. It helps to communicate with testers if any inputs or confirmation required regarding the defect.
- Developed and updated the driver UI using XAML and worked on defects related to WCAG in WPF Applications. It helps to visually challenged people to use the application efficiently.

EDUCATION

B-Tech

Electronics and Communication Engineering
Audisankara College of Engineering and Technology, Gudur
June 2017 – July 2021 | GPA: 7.86 / 10

ACCOMPLISHMENTS

- HCL ERS Champion Award: Awarded for the extraordinary technical contribution for AMJ quarter in 2023.

ADDITIONAL INFORMATION

- Excellent communication and teamwork skills, proven ability to work effectively.
- Willing to relocate or work in hybrid/remote setups.
