EDUCATION

**Padmabhooshan Vasantraodada Patil
Institute of Technology, Pune**

Bachelor's Degree in Mechanical Engineering

MIT Polytechnic, Pune

Diploma in Mechanical Engineering

SKILLS

Programming : Java 8, Core JAVA, SQL
Framework : Spring Boot, Spring MVC
Architecture : Microservices
Technologies : Junit, Jmeter
ORM tool : Hibernate, JPA
Databases : Oracle
IDE/Tools : Eclipse, VS Code

ACHIEVEMENTS

- Star of the Quarter Award thrice from TCS.
- Star of the Month Award from TCS
- On the Spot Award from TCS.
- Client appreciation for timely delivery of applications consistently.

CERTIFICATION

Java Programming & Software
Engineering Fundamentals.

Introduction to Spring Boot &
Microservices.

PROFESSIONAL EXPERIENCE

Java Developer

Tata Consultancy Services | 2021- Present

- Professional experience in developing scalable, reliable and efficient applications using Java/J2EE technologies.
- Implement agile methodology for better project delivery.
- Strong experience in Spring Framework modules such as Spring Boot.
- Hands on experience in testing technologies like Junit, Mockito and Postman.
- Experience in RDBMS technologies such as Oracle utilizing Functions, Triggers, and Stored Procedures. Involved in optimizing and tuning procedures as well as handling complex queries.
- Experience in working with Microservices Architecture to independently deployable service of agile development and organizational alignment.
- Experience in implemented JWT token based authentication and authorization for securing RESTful APIs.
- Working on Kubernetes & Docker as the deployment tool.

OVVR Application

- Application is designed to convert COBOL based voucher application of SBI Core Banking to Microservices based Rest API's.
- We implemented CRUD operations using Hibernate for role-based user management allowing for the creation, updating, and deletion of data in Database based on specific roles.

CBS Six Enquiries

- Developed Java modules as Microservices for each independent service using Spring Boot to convert COBOL based voucher application of SBI Core Banking to Microservices based Rest API's.
- Developed this six enquiries by using Microservices to get response quickly.

Statements

- Developed Java application of various module's statements like Deposit, Loan, etc. to get the Bank Statements of transactions that are made by the customer.
