

SHACHI VERMA

Java Developer | vermashachi.alld@gmail.com | +91 9559786378 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Results-driven **Java Developer** with **3.5+ years of experience** in enterprise-grade backend systems and e-commerce platforms. Proficient in **Java 8/11, Spring Boot, Hibernate, and SAP Commerce (Hybris)**. Strong expertise in **RESTful API development, micro services architecture, and AWS cloud deployments**. Skilled in **database optimization (MySQL), CI/CD pipelines (Jenkins, Maven), and Agile methodologies**. Adept at delivering **secure, scalable, and high-performing applications** within strict timelines.

Technical Skills

- Programming Languages: Java 8/11
- Frameworks & Technologies: Spring Boot, Spring MVC, SAP Hybris, Hibernate, Microservices Architecture
- Databases: MySQL, SQL
- Cloud Platforms: AWS (EC2, S3)
- Messaging & Integration: Apache Kafka, REST APIs
- Monitoring & Logging: Grafana, Splunk
- Version Control & CI/CD: Git, GitHub, Bit bucket, Jenkins, Maven
- Testing & Automation: JUnit, Mockito, Impex, Cronjobs, Solr, Groovy Scripts
- Containerization: Docker, Kubernetes (basic knowledge)
- Methodologies: Agile (Scrum), SDLC

Work Experience

Nagarro Software Pvt Ltd – Engineer (Java Developer)

March 2022 – Present

- **Client (Amway US)** Developed and maintained **RESTful APIs** and **microservices** for user management, authentication, transaction processing, and role-based access control.
- Implemented secure coding practices including input sanitization, exception handling, and validation frameworks, improving application reliability.
- Integrated third-party APIs and payment gateways, enabling seamless communication between internal and external systems.
- Improved code quality by writing **JUnit & Mockito test cases**, achieving 25% reduction in production bugs.
- Contributed to **CI/CD** pipelines with Jenkins and Maven, reducing deployment time.
- Monitored production applications using Grafana and Splunk, performing root cause analysis to minimize downtime.
- Customized SAP Commerce (Hybris) modules for a US-based B2C e-commerce platform.
- Implemented **multi-step customer onboarding**, product catalog management, Solr search facets, cron jobs, **flexible search queries**, and Groovy scripts.

Education

- Bachelor of Technology (B.Tech) – **Computer Science & Engineering** | United College of Engineering & Research, Allahabad (AKTU) – 2022 | 82.5%
- Class XII (ISC Board) – Girls High School & College, Uttar Pradesh – 2017 | 80%
- Class X (ICSE Board) – Girls High School & College, Uttar Pradesh – 2015 | 90%
