CAREER OBJECTIVE

Work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective and to gain new experience and to utilize my interpersonal skills to achieve Organizational goals.

TECHINICAL SKILLS

- **Cloud:** AWS and Microsoft Azure.
- Infrastructure Automation Tools: Ansible, Jenkins, Docker, MyNav, Kubernetes, Helm and Terraform.
- Programming Languages: Python, Shell Scripting and HTML.
- Databases: Oracle, MySQL
- Version Control Tools: GIT and Bitbucket.
- Platform Used: Windows, Linux.
- Incident Management Tools: Jira and ServiceNow.
- Monitoring Tools: Grafana, Prometheus and Zenoss

EXPERIENCE

- **Accenture – Cloud DevOps Engineer [2021 – present]**

Project: PNC Bank [2023-present]

Role: I use Azure DevOps to create CI/CD pipelines, manage infrastructure deployments, and automate tasks with Ansible and AWX. I write playbooks, handle configuration management, and automate processes using shell scripting. I perform regular code pushes, testing, and log validation. As part of the Linux team, I automated infrastructure migration from active to passive, managed monthly patching, and troubleshoot issues.

- Working on **Azure DevOps** tool to create CI/CD pipelines, Release creations, Infrastructure deployments using YAML
- Working on **Ansible and AWX** automation to create playbooks for requirements to automate the task.
- Working on **Azure infrastructure Management** using DevOps
- Working on **Kubernetes** infrastructure management using Helm Charts.
- Automating **Infrastructure as code**
- Working on infrastructure **Configuration Management** using Ansible
- Working with **Python, and shell scripting** in Automating tasks.
- Creating Workflows Templates and Job Templates according to Disaster Recovery in Ansible Tower (AWX).
- Creating customized playbooks for processing logs, Structure outcome data by SQL query, and for shell scripts.
- I use Bitbucket to update playbooks and shell scripts based on client requirements, and we utilize Bitbucket to manage our code.

Project: Telstra [2021-2023]

Role: As a member of the Wave Management team, working with a group of three, I was responsible for managing infrastructure. My role involved Linux administration, automating tasks with Ansible, and ensuring the smooth operation of UNIX servers. I handled regular patching, server updates based on the requirements. I also contributed to the migration of over 550 virtual machines to the cloud, deployed applications using MyNav, and played an active role in the design and requirements gathering.

- Good experience in Amazon Web Services (AWS), Creating EC2 Instances and configuring necessary services
- Successfully automated regular activities using Ansible, resulting in significant time and resource saving for the organization.
- Managed UNIX servers to ensure optimal uptime and smooth operation. Implemented proactive monitoring and maintenance practices to prevent disruptions addressing any issues, and maintain continuous service availability.
- Troubleshooting day-to-day issues such as logging in, disk space, CPU Utilization, and Memory Utilization.
- Configuring and Managing **Logical Volume Manager (LVM)**.
- Collaborating with clients to understand server requirements and building/decommissioning servers accordingly.
- Migrated over 550 virtual machines (VMs) from on-premises infrastructure to cloud environments. This process involved meticulous planning and execution, resulting in improved scalability and flexibility for the organization
- Network troubleshooting with TCP/UDP protocols and Telnet, including connectivity and performance issues.
- Created Resource group, network IP, subnet to VM's in time to migrate on a particular time.

EDUCATIONAL QUALIFICATION

- MCA from Sri Venkateswara College of Engineering (SVCE), Tirupati in 2020 with 7.3 CGPA.
- BSC from National Degree College, Nandyala in 2018 with 8.0 CGPA.

CERTIFICATIONS

- AWS Solution Architect Associate
- Microsoft Azure Fundamentals Certification
- Microsoft Az-104 Certification

LANGUAGES

- English (Fluent)
- Telugu (Native)
- Hindi (Intermediate)
- Kannada (Intermediate)

HOBBIES

- Playing Chess
