

NALLAM SUNIL KUMAR

Software Engineer | .NET Developer

📞 7569614443 ✉ nallamsunilkumar5@gmail.com 🔗 LinkedIn 📍 Andhra Pradesh, India

SUMMARY

I am a results-driven .NET Developer with 2 years of experience specializing in C#, ASP.NET Core, and SQL Server. I have a strong understanding of microservices architecture and REST API development, complemented by my proficiency in cloud technologies like AWS and Azure. I excel in optimizing backend performance and building scalable applications while leveraging AI-assisted tools to enhance productivity and efficiency.

EXPERIENCE

Software Engineer

Locobuzz Solutions Private Limited

📅 01/2024 - 08/2025 📍 India

A company focused on delivering innovative software solutions

- Collaborated on high-impact projects including LinkedIn Data Collection Services, CMO Verse, and NewsVerse, delivering robust and scalable enterprise solutions using .NET, SQL Server, Redis, Kafka, and microservices.
- Reduced NewsVerse data pipeline reporting time to 1 hour, increasing efficiency by 50% using SQL Server, Redis, Kafka, and ASP.NET Core.
- Developed REST APIs and microservices in ASP.NET Core, ensuring seamless integration and data exchange between services
- Peer-reviewed 100+ pull requests, improving code quality and reducing deployment errors.
- Resolved critical software bugs, enhancing system stability by 30%.
- Implemented AWS CI/CD pipelines on Amazon EKS using Terraform, achieving faster deployments with reduced errors.
- Leveraged Kafka for real-time data processing and Redis for intelligent caching, improving system performance.
- Worked in Agile/Scrum environment, collaborating with cross-functional teams and enhancing communication skills.
- Adopted AI tools (GitHub Copilot, ChatGPT) to accelerate coding, debugging, and documentation, reducing development cycle time.

EDUCATION

Bachelor of Engineering

SRM University

📅 08/2020 - 05/2024 📍 Tamil Nadu

KEY ACHIEVEMENTS

Top Performer Recognition

Consistently recognized as a top performer for exceeding expectations and delivering results

Deployment Automation

Automated .NET deployments using CI/CD pipelines, achieving 50% faster deployments and 20% fewer errors

Kafka Implementation

Implemented Kafka in data pipelines, improving processing speed by 20%

Backend Optimization

Reduced data update time by 89% and increased processing speed by 200% through backend optimization

SKILLS

Agile	ASP.NET	ASP.NET Core	
AWS	AWS Lambda	Azure	
ASP MVC	Devops	C#	
Caching	Docker	EC2	
Entity Framework		Git	GitHub
Kafka	MVC	OOP	PostgreSQL
Redis	REST	S3	Scrum
SQL	Terraform	Unit Testing	
ClickHouse	Microservices		NET
Gmail
