SUMMARY

Full Stack Developer skilled in building scalable web and mobile applications with clean architecture, optimized RESTful APIs, and high-performance components. Delivers secure, reliable, production-ready solutions with strong debugging, system optimization, and end-to-end development execution.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
DVR & Dr. HS MIC College of Technology | CGPA: 8.2 2022- 2026

SKILLS

Languages: JavaScript, Python
Frontend: React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, PHP, RESTful APIs, Authentication
Databases: MongoDB, MySQL, PostgreSQL, Supabase
Cloud & DevOps: Git, CI/CD, AWS, Vercel, Render, Railway
Tools: VS Code, Postman, API Testing Tools, AI-Assisted Development
Strengths: Problem-Solving, Debugging, System Design, Performance Optimization, Collaboration

EXPERIENCE

Full Stack Web & App Developer
NextHub Technologies Pvt. Ltd. September 2024 – Present

- Developed and deployed **scalable** web and mobile applications, including **government** and **healthcare** systems, ensuring **production reliability** and **secure performance**.
- Executed **full-stack development** workflows involving **UI implementation**, **backend integration**, **API engineering**, **authentication flows**, and **automated deployments**.
- Enhanced application performance through structured **debugging**, **performance tuning**, **code optimization**, and collaboration within **agile team**

PROJECTS

AI-Powered Inventory Management System with E-Commerce Platform [Link](#)
Tech: Next.js, TypeScript, Tailwind CSS, Fastify, Supabase (PostgreSQL), Groq (LLaMA 3.1), Vercel, Railway

- Built a **scalable, AI-driven inventory and e-commerce system** enabling **real-time tracking**, **demand forecasting**, and **automated restocking** through **LLaMA 3.1-powered predictions**.
- Implemented **secure APIs**, **role-based access**, and **cloud deployments** using **Docker**, **Vercel**, and **Railway**, delivering **high availability**, **optimized performance**, and **production-grade reliability**.

ESI Healthcare System – Government Hospital & Patient Discovery Platform [Link](#)
Tech: React Native, Expo, TypeScript, Next.js, Supabase (PostgreSQL), REST APIs, Authentication

- Built a **government healthcare mobile app** enabling **hospital search**, **doctor discovery**, **real-time data access**, and **offline support** using a secure **Supabase backend** and optimized **React Native** architecture.
- Developed an **admin dashboard** in **Next.js** with **role-based access**, **secure CRUD workflows**, and **cloud-ready deployments**, ensuring **high performance** and **production reliability**.

CareerInEdu.com – Career & Education Resource Platform [Link](#)
Tech: HTML5, CSS3, JavaScript, Bootstrap, PHP, MySQL, REST APIs, SEO

- Built a **responsive career platform** offering **jobs**, **internships**, and **learning resources**, implementing a **PHP–MySQL backend** for **secure data management** and seamless user interaction.
- Optimized the frontend using **SEO best practices**, improving **search visibility**, **accessibility**, and overall **performance** across devices.

Certifications

- Full Stack Web Development** | Udemy 2025
- Blockchain Development: Basic Fundamentals** | RiseIn 2025
