Professional Summary

- Software Test Engineer with 2 years of experience in manual and automation testing, specializing in smoke, regression, functional, and system testing. Proven expertise in writing and executing test cases, bug tracking, and defect lifecycle management using tools like JIRA. Strong understanding of SDLC and STLC with hands-on experience in test execution, defect reporting, and root cause analysis. Basic knowledge of Java, SQL, and automation concepts. Committed to ensuring high-quality software delivery through precise testing and collaborative teamwork.

Technical Skills

- **Testing Types:** Smoke Testing, Functional Testing, Regression Testing, System Testing, Integration Testing, Black Box Testing, Manual Testing
- **Testing Techniques:** Test Planning, Test Case Design, Test Execution, Test Result Analysis, Defect Reporting and Retesting
- **Test Management Tools:** JIRA—Test Case Management, Bug Tracking, Defect Lifecycle, Prioritization
- **Quality Practices:** Quality Assurance, Quality Engineering, Software Development Life Cycle, Software Testing Life Cycle
- **Defect Tracking:** Bug Tracking, Root Cause Analysis, Defect Reporting, Bug Life Cycle Management
- **Database Scripting:** SQL (Basic queries for data validation), Basic knowledge of Java
- **Soft Skills:** Analytical Thinking, Team Collaboration, Independent Ownership, Time Management, Fast Learner, Working Under Pressure

Professional Experience

Software Test Engineer

April 2023 – Present

Indium Software Private Limited — Client: Uber Technologies

Hyderabad, India

- Created detailed and effective **manual test cases** for **Uber Rider and Driver applications**, covering new features, UI/UX improvements, and integration points.
- Executed test cases to identify and document **defects**, ensuring high-quality software releases.
- Created and updated test cases whenever design changes occurred, maintaining accuracy and relevance.
- Conducted rigorous **regression testing** to validate stability of existing features after each development cycle, preventing negative impacts on app functionality.
- Utilized bug tracking tools like **JIRA** to perform **defect reporting**, prioritize, and track **bugs** throughout the **Software Development Life Cycle (SDLC)**; collaborated with development teams for timely resolution.
- Performed **mobile interruption testing** on Uber Rider application to check app response to unexpected interruptions.
- Documented test results using standard templates and tools like **JIRA** to maintain thorough records of all testing activities.
- Assisted in training junior testers on **software testing best practices** to improve team productivity and quality.
- Participated in peer reviews of **test plans, test scripts**, and data sets to ensure completeness and accuracy.
- Performed **manual testing** on multiple platforms including web applications, mobile devices, and desktops.
- Collaborated closely with Uber's product and development teams in an **Agile** environment to clarify requirements and provide timely feedback, improving product quality and delivery speed.
- Maintained and updated test documentation and **Standard Operating Procedures (SOPs)** to streamline onboarding and ensure testing consistency.

Education

Visveswaraiah Technological University (VTU)

June 2015 – June 2019

Bachelor of Engineering in Mechanical Engineering

Belagavi, Karnataka

SRVM High School and Jr. College

June 2014 – June 2015

HSC in PCMB

Jath, Maharashtra
