PROFESSIONAL SUMMARY

Self-driven and detail-oriented .NET Developer with 3.7 years of experience in developing high-performance web applications using C#, ASP.NET Core, Blazor, TypeScript, and SQL Server. Skilled in building scalable, accessible UI components, optimizing performance, and working in Agile environments. Adept at collaborating across teams, mentoring juniors, and quickly adapting to new technologies.

PROFESSIONAL EXPERIENCE

- Nov 2021 - Present
- Software Developer (.NET & Front-End)**
Syncfusion Software Pvt Ltd., Chennai.
 - Developed and maintained core features of Blazor DataGrid and Pager components using C# and TypeScript.
 - Implemented column virtualization, lazy loading, and Right-to-Left (RTL) support for performance optimization.
 - Customized UI components with Material, Bootstrap, Fluent, Fabric, Tailwind, and High Contrast themes.
 - Improved web accessibility (WCAG) and enhanced drag-and-drop UX features for DataGrid rows.
 - Built reusable Blazor components with thorough unit (bUnit) and E2E (Playwright) testing.
 - Collaborated with cross-functional teams using Agile/Scrum, and mentored junior developers.
 - Used Git, Azure DevOps, and JIRA for source control, CI/CD, and project tracking.

EDUCATION
