Proficient in UiPath, Power BI, Reltio, and Python, focusing on enhancing operational efficiency and data quality. Adept at cross-functional collaboration and committed to delivering high-quality, tailored solutions.

Work Experiences 4yrs, 6m

Associate Consultant
Infosys Limited

Jun'21 - Present 4yr, 6m
Pune, Maharashtra

Managed diverse projects focusing on automation, data analytics, and master data management. Collaborated with cross-functional teams to deliver solutions that improved operational efficiency and data accuracy. Applied expertise in UiPath, Power BI, and Reltio to drive key organizational growth and process enhancements.

Projects 3

UiPath Automation for UK Bank
Associate Consultant @ Infosys Limited

Jun'21 - present

Automated banking tasks including data entry and reconciliation using UiPath, cutting processing time by over 65% and reducing errors. Integrated bots with banking systems, established performance monitoring, and utilized advanced UiPath concepts like REFramework and SQL for robust solutions.

UiPath SQL UiPath Studio UiPath Orchestrator REFramework

Customer Data Quality and Integration

Jun'21 - present

Associate Consultant @ Infosys Limited

Enhanced customer data quality and integration using Reltio MDM, delivering a single source of truth. Led data cleansing, standardization, and integration efforts, reducing duplication and improving accuracy.

Established data governance and collaborated with stakeholders to tailor solutions.

Reltio MDM

Sales Performance Dashboard

Jun'21 – present

Associate Consultant @ Infosys Limited

Developed an interactive sales performance dashboard using Power BI, integrating data from Excel and SQL. Provided real-time insights into sales trends and product performance. Created complex DAX measures and designed drill-down visuals, enhancing business unit analysis.
