

RANJITH KUMAR C

SAP ABAP DEVELOPER

☎ +91 - 7010892371 , +91 - 7502922019 @ ranjithc.cse@gmail.com 📍 Coimbatore , Tamilnadu .

CAREER OBJECTIVE

To work as an SAP Technical Consultant and seeking a challenging and rewarding opportunity in reputed organization which recognizes and utilizes my true potential while nurturing analytical and technical skills for the deeper understanding of Business process. To solve problems and provide IT business solutions for growth of the company.

PROFESSIONAL SUMMARY

Being a Senior Technical Consultant with over 6.5 years of experience in the SAP domain. Developed SAP ABAP applications for functional areas including MM, SD & FI. Involved in analysis, design, and development of various custom applications. I have successfully contributed to 1 implementation project, 2 support projects, and 1 migration projects gaining hands-on experience in ECC and S/4 Hana. Focused on reaching the goals of the client regarding object development.

As a Technical Consultant on ECC & S/4 HANA worked on programming Reports (Classical, Interactive ALV), AL11 File Interface, Smart Forms, Module-Pool programming, Enhancements, BDC, BADI, BAPIs, RFCs, Data Transfer Methods (ALE IDocs), Object Oriented ABAP, CDS Views, Code Push down using AMDP classes, new ABAP Coding for ABAP 7.4+ on HANA db .

- **Reporting:** Worked on requirement for implementing Simple List, Interactive List and Grid ALV Reports for Purchase ,Sales & Invoice Report, In-transit Stock Report, Vendor Management Report, etc
- **Module-Pool Programming:** Worked on developing various screens for requirement of Shipment / Sales order for Verify Gross Mass ,ect using Module-Pool Programming.
- **Data Dictionary:** Creation of data dictionary objects including Tables, Data Elements, Domains, TMG events.
- **Smart Forms:** Developed number of Smart Forms like Saftey Data Sheet, Dangerous Goods Check, Verified Gross Mass , Packing List ,ect.
- **Enhancements:** Worked with BADI's, User Exits, Customer Exits, and Enhancement spots for requirement of Purchase ,Sales Order and Shipment.
- **BAPI:** Use of standard BAPI's for standard business operations like Bulk creation of Accounting Document .
- **Batch Data Uploading:** Developed report to upload excel/raw data to SAP system and parsing to Standard SAP using Call Transaction programs for various transactions.
- **OData:** Worked for designing and developing OData for Mobile Apps.
- **HANA:** Performed various report design and worked on Code push down using AMDP Class, New ABAP Coding for ABAP 7.4+.
- **CDS:** Designed and developed Core Data Services (CDS) views using ADT in Eclipse, including SQL-based Interface Views, Consumption Views, and Table Functions for reporting and Exposing CDS as OData.
- **SAPUI5/BTP** - Developed a SAP UI5 application as a Proof of Concept (POC) on SAP BTP.

SKILLS

SAP ABAP, ABAP ON HANA, SAP BTP

EXPERIENCE

08/2022 - Present

Remote- Hyderabad, IN

• Senior Technical Consultant

Argano

- Developed a custom application for tracking stock transfers, sales history, and driver programs to print certifications, safety data sheets, and XML files for Nota Fiscal Electronica documents.
- Worked on the implementation of BADIs and user exits (Sales order, shipment). The Standard Shipment Screen has been enhanced with the addition of a new popup window that appears when a button is clicked, allowing the shipment to be verified for gross mass before shipment is dispatched.
- Worked on the development of EHS Modules for France, LATAM Region where Smartforms and AdobeForms were developed and enhanced for Dangerous Goods Check.
- Enhancing end-user experience and reporting capabilities through the implementation of complex ALV reports and SmartForms.
- Optimized existing SAP ABAP programs by converting BDCs to BAPIs, SQL traces, and runtime analysis, resulting in a reduction in average transaction times.
- Collaborated with the functional team to translate business requirements into technical specifications for SAP system enhancements
- Mentored freshers on the basics of SAP ABAP, coding standards, and debugging
