LinkedIn Profile

❗ Executive Summary

Highly accomplished **Product Leader** with **18 years of experience** defining, launching, and scaling high-impact products in **Payments, Cards, and Digital Banking**. Recognized for a unique blend of **strategic consulting** acumen, deep **product anchoring** expertise, a strong track record in **business development** and market expansion, and a demonstrated commitment to **thought leadership**. Proven ability to lead diverse, cross-functional teams to deliver exceptional value and tangible business outcomes, including **over \$3.5M in business value generated** and **~\$0.5M in cost savings**, with specialized expertise in **Data Product enabled Value Propositions** and **GenAI empowered transformative solutions**. Seeking to leverage a comprehensive skill set to drive innovation and market leadership at a forward-thinking organization.

❗ Product Leadership Experience

Associate Director - Product Management, Payments Product Management Craft

Publicis Sapient | Chennai, India | September 2021 – Present

- **Consulting & Strategic Alignment:**

- Consulted directly with executive leadership and key stakeholders to align product strategy with overarching business objectives for global clients in digital banking, enterprise payments, and card services.
- Defined the Product Strategy and Roadmap for building a neo-bank for a Leading Client in KSA, specifically targeting the **Gen Z Market** and aiming to **increase new accounts acquired by 15% within 2 years of inception**.
- Researched FinTech partners and UK-based accounting/open banking data providers, performing vendor analysis and preparing business cases to support product development and integration for a leading UK bank.
- Advised on defining strategy, product roadmap, customer journeys, and capability mapping for a new neo-bank in the Kingdom of Saudi Arabia.

- **Product Anchoring & Ownership (Data Product & GenAI Focus):**

- Leading the Payments & Cards Product craft for FS India, overseeing a team of **around 30 Product Managers** creating impact across multiple client engagements in Payments transformation programmes.
- Spearheaded the end-to-end product development lifecycle for a **re-usable Data Platform on GCP**, including roadmap definition, ideation, prioritization, and execution, ensuring alignment with business objectives and customer needs.
- Supervised cross-functional teams (business, engineering, proposition) to conceptualize and deliver innovative **customer-facing data products** (e.g., Cash Flow Forecasting, Merchant Financial Insights) that drive impactful business outcomes.
- Directed the creation of functional architecture for the Data Platform and propositions, ensuring solutions are aligned with business goals, technical feasibility, and customer needs.
- Laid the foundation for SAFe Agile delivery execution, coaching lab team members and driving the first PI events and ceremonies for data product implementation.
- Defined the Market Strategy for End-to-End digital transformation for the **Commercial Debit Cards proposition** for a leading UK bank. The north stars were to **increase card acquisitions by 25%, reduce Colleague Operations costs by 30%, and reduce customer attrition**.

- **Business Development & Growth:**
 - Drive Pre-sales and Business Development (BD) activities for any RFP/RFI/Opportunity discussions in the Payments & Cards domain.
 - Led the overall solutioning for a Payment Orchestration platform for a leading Travel & Hospitality client, consolidating disparate payment processing platforms to ease severe operational efforts, with a **Total Contract Value (TCV) of close to \$6M USD**.
 - Anchored the **GenAI Advisory offering** powered through Data, insights and modelling from conception till MVP launch and packaged it into a re-sellable value proposition across relevant Client contexts, including **propositions worth \$5M USD in revenues** being responded to under my leadership.
 - Collaborated with proposition teams to craft data-driven customer propositions like Cash Flow Forecasting, resulting in strategic cross-sell and up-sell opportunities for the bank's clients.
 - Researched the payments landscape in the KSA region (P2P payments, clearing houses, SAMA regulations) to inform the neo-bank's strategy and identify value hooks for customers and the bank.
- **Thought Leadership & Influence:**
 - Anchored internal and external curated learnings for the Payments community, fostering continuous skill development and knowledge sharing.
 - Authored and led publishing of Points of View (PoVs), Frameworks, and Accelerators across key areas including Payments Orchestration, Payments Data Monetization, and GenAI based offerings.
 - Led the Payments Product Management craft, focusing on digital transformation and product innovation, anchoring engagements across large-scale, complex transformations for global clients.
 - Contributed to innovative frameworks in areas such as **AI-based conversational platforms**, open APIs, and digital customer engagement strategies within the financial services sector.

Consulting Manager (Progressing from Product Manager, Senior Product Owner & Business Architect, Lead Business Analyst/Product Owner)

Cognizant Technology Solutions | India & Global | July 2009 – September 2021

- **Consulting & Strategic Alignment:**

- Anchored the consulting engagement to define the **Multi-tenant consolidation for Enterprise Payments Platform** for a leading Payments network organization in the US. This included defining the Product strategy, Goals and KRAs, and Product Roadmap for the multi-year engagement with **TCV around \$10M USD**, run with teams across UK, US & India. Transformed legacy payment settlement systems from mainframe onto a digital technology suite, which accelerated time-to-market for launching offerings to Acquirers & Merchants, realized operational efficiencies, and cut processing costs.
- Led a consulting engagement for a leading US-based non-profit (TFA), conducting gap analysis, identifying best practices, and proposing a target state for their Gift Payment Processing Platform.
- Managed client relationships and scope for a multi-tenant network platform focused on disputes, settlement, and reporting streams for a leading payment company in North America.
- Digitized the customer acquisition platform across 14 markets, leading a 5-year transformation from paper-based to fully digital processes.

- **Product Anchoring & Execution:**

- Led a 5-member product team and 20-member scrum team for the Enterprise Payments Hub implementation, driving Agile epic/feature envisioning, backlog definition, and stakeholder management.
- Anchored backlog grooming and requirements documentation for complex payment systems, including internal transfers and RTP/Zelle implementation for P2P payments.
- Piloted successful eKYC implementation in India & Germany, and implemented key capabilities such as eSignature, document upload, instant decisioning, and campaign management.

- **Business Development & Impact:**

- Developed a multi-pronged product implementation approach that delivered incremental benefits, resulting in a **~20% increase in gift revenues** and a **~30% increase in digital conversions** for a leading US non-profit.
- Contributed to increased new account acquisitions and improved campaign effectiveness by digitizing the global credit card issuing landscape.

- Authored user stories and validated functional requirements for settlements business teams, ensuring alignment with commercial goals.
- **Thought Leadership & Mentorship:**
 - Conceptualized and brought to life a **Conversational AI Offering** for Small and Medium banks to leverage AI to transform customer experiences and enable embedded banking. The white-label product was developed and successfully pitched to multiple clients in the North American region, demonstrating significant potential for cross-sell revenues and immense reduction in customer servicing operational costs.
 - Anchored program delivery and agile scrum management across large-scale digital transformation projects, including card issuing, acquiring, and enterprise payments hubs.
 - Mentored and guided teams through the end-to-end product lifecycle, from ideation and solution envisioning to development and deployment, all within an Agile framework.

📌 Key Skills & Expertise

Product Strategy & Vision:

Product Roadmapping, Go-to-Market Strategy, User Research, Competitive Analysis, Market Segmentation, Pricing Strategy, Product Lifecycle Management, **Data Product Strategy**, **AI/ML Product Integration**, Open Banking, FinTech Landscape Analysis

Business Development & Growth:

Revenue Generation, Market Expansion, Partnership Development, Sales Enablement, Data-Driven Decision Making, Financial Modeling, Client Relationship Management, Value Proposition Definition

Consulting & Leadership:

Strategic Advisory, Digital Transformation, Cross-functional Leadership, Stakeholder Management, Team Building & Mentorship, Negotiation, Agile/Scrum Methodologies (SAFe, CSM), Program Management

Thought Leadership & Communication:

Public Speaking, Technical Writing, Content Creation, Industry Analysis, Conference Presentations, Executive Presentations, Whitepaper Development, Innovation Frameworks (**GenAI**, Open APIs)

Business Domain - Cards:

- Issuing (Digital Onboarding, Servicing, Disputes, Fraud Management, Collections & Recoveries)
- Acquiring (Merchant Onboarding, Servicing and Pricing)
- Network (Settlements)

Business Domain - Payments:

- Enterprise Payments
- Payment Hub (GPP Finastra)
- RTP
- Payments Orchestration
- Wallet Integrations
- Open Banking
- ISO20022

Technical Tools:

Mambu, GPP (Finastra), Peoplesoft Financials, VisionPLUS, JIRA, Confluence, GCP, SQL, Figma

! Education & Certifications

- Post Graduate Programme in Management (MBA), Finance & Information Systems | MDI, Gurgaon | 2009
- Bachelor of Technology, Civil Engineering | NIT Trichy | 2005

Certifications:
