PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience in developing, optimizing, and deploying enterprise-grade web applications using Java, React.js, Node.js, and Spring Boot. Skilled in building RESTful APIs, Microservices, and implementing secure authentication using JWT and OAuth2. Experienced in Agile/Scrum environments, cloud deployment, and performance optimization. Proven ability to deliver scalable, high-performance full-stack solutions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C, C++

Frontend: React.js, Redux, HTML5, CSS3, React Hooks, Responsive UI Design

Backend: Java Spring Boot, Node.js, Express.js, RESTful APIs, Microservices, Passport.js

Databases: MongoDB, MySQL, PostgreSQL

DevOps / Tools: Docker, CI/CD, AWS, Git, Postman, VS Code, Eclipse

Security / Testing: JWT, OAuth2, JUnit

Methodologies: Agile, Scrum, Cloud Deployment, Performance Optimization

PROFESSIONAL EXPERIENCE

Full Stack Developer

Newgen Technomate LLP, Pune, India | Aug 2023 – Present

- Developed backend components and RESTful APIs using Java Spring Boot, supporting 500+ daily users.
- Optimized database queries and backend logic, improving response time by 30%.
- Implemented JWT and OAuth2 authentication with role-based access control.
- Collaborated in cross-functional Agile/Scrum teams to deliver scalable modules on schedule.

Full Stack Software Development Intern

Innobyte Service, Remote | Jan 2023 – Apr 2023

- Developed secure Login and Registration modules using React.js frontend and Node.js/Express backend with MySQL and MongoDB integration.
- Integrated JWT and Google OAuth2 for secure authentication.
- Built a UPI payment system for appointment booking, reducing transaction errors by 25%.
- Enhanced frontend responsiveness and backend efficiency for a smoother user experience.

PROJECTS

Hospital Management System – Full Stack Development (Java, Spring Boot, React.js, MongoDB)

- Designed backend architecture to manage doctors, patients, and appointments with role-based access.
- Developed RESTful APIs and optimized database queries, improving performance by 30%.
- Created responsive frontend UI for appointment booking and patient management.

3-Wheeler Loading System – Full Stack Development (Java, Spring Boot, React.js, MongoDB)

- Developed web application for cargo management, booking, route assignment, and delivery tracking.
- Built RESTful APIs and responsive frontend for seamless operations.
- Optimized backend logic and database queries for improved efficiency.

TinyLink – Full Stack Development (JavaScript, Node.js, Express.js, React.js, MongoDB)

- Engineered URL shortener with unique code generation and redirect logic.
- Implemented click analytics tracking for each URL.
- Deployed full-stack application on Render for scalable hosting.

EDUCATION

B.Tech – Electronics and Communication

Technocrats Institute of Technology, Bhopal | 2019–2023 | CGPA: 8.0

CERTIFICATIONS

- Java Programming Certification – HackerRank, 2024
- Docker & CI/CD Fundamentals, 2024
- HTML & CSS Web Development – GUVI, 2024
- C++ Programming Certification, 2019
