

Sai Siva Shankar.N

SAP Integration Consultant | SAP CPI | SAP PI/PO

Mob: +91-7989180827

Email: Sivashankarnerella@gmail.com

Objective

I am a SAP Integration Consultant with over 4.5 years of experience in SAP PI/PO, SAP CPI, I have successfully delivered scalable, secure, and high-performing integration solutions across diverse landscapes. My core strengths include hands-on expertise in API Management, Event Mesh, Cloud Connector, and robust error handling frameworks. I am passionate about solving complex integration challenges and contributing to efficient enterprise processes.

Overview

- Over 4.5 years of professional experience in SAP PI/PO, SAP Cloud Integration (CPI),
- Strong expertise in API Management, Event Mesh, Cloud Connector, and PIPO support consultant.
- Designed and implemented complex end-to-end integrations between SAP and non-SAP systems using adapters like IDOC, SOAP, REST, FILE, SFTP, JDBC, RFC and PROXY.
- Expert in developing robust error handling and retry mechanisms.
- Proficient in graphical, and UDF mappings; familiar with ESR bypass scenarios.
- Sound understanding of ALE configuration, IDoc processing, CTS transports, and module configurations.

Experience Summary

SAP PI/CPI & BTP Integration Consultant at

Certifications

SAP Certified Development Associate – SAP Integration Suite

Projects:

Project #2

Role: SAP Integration Consultant (CPI/PI/PO + API/Event Mesh)

Project Name: PepsiCo North America

Environment: SAP CPI/API

- Developed and implemented end-to-end integration scenarios using **SAP Integration Suite** (CPI, API Management, Event Mesh), enabling seamless cloud and on-premise communication.
- Enabled **event-driven architecture** by creating queues, managing subscriptions, and publishing/consuming events via **SAP Event Mesh**.
- Integrated legacy and SAP systems using adapters such as **JDBC, IDOC, RFC, and File** in both **CPI and PI/PO** platforms.
- Designed and documented **technical specifications** and supported **functional consultants** with integration testing and interface validation.

- Handled **transport of ESR and ID objects** using CTS and worked with **SAP File Transport in SCPI** for artifact migration across environment.
- Collaborated with cross-functional teams to **create interface technical documents** and provided end-to-end support during **system integration testing (SIT)** and **user acceptance testing (UAT)** phases.

PROJECT #1

Role: SAP PI Consultant

Project Name: Future Group

Environment: SAP PI 7.5

Responsibilities:

- Designed and configured File-to-File and Pass through scenarios for inventory and feedback processes.
- Worked on **end-to-end interface development** using **ICO (Integrated Configuration Objects), Sender/Receiver Agreements, and Communication Channels**
- Prepared detailed technical interface documentation and collaborated with functional consultants during testing and documentation phases to ensure successful end-to-end integration delivery
- Handled partner profile configurations, message controls, and IDOC processing setups good knowledge on ALE settings
- Monitored message flows in Runtime Workbench.
- Managed real-time monitoring, XML payload analysis, and system health checks.
- Experience in **supporting SAP PI/PO interfaces**, handling ticket resolution, error analysis, and monitoring message flows.
